

Boston Flex — Brand & Art Direction

Visual guideline for AI-generated study materials (slides, video, infographics) ·
"Great Disciples"

Purpose of this document. Attach this file as a source and instruct the AI to "follow the attached brand guideline for colors, fonts, mascot and design style." Every slide, video frame and infographic generated from the grammar guide must obey the palette, the mascot rules and the clarity standard below.

1 · Color Palette (exact values)

 Disciple Blue #2B2F84 Primary · headers, key shapes	 Lion Red #C8161D Accent · warnings, emphasis	 Glory Gold #F2C230 Highlights, rules, dividers
 Shield Blue #0C6390 Secondary blue, gradients	 Judah Amber #E29A2C Mascot body, warm fills	 Mane Brown #6E2A0C Outlines, mascot mane
 Parchment #F6E7C1 Soft backgrounds, cards	 Eye Green #5BA84F "Correct" tags only	 Ink #231A12 Body text, line art

Usage ratio (60-30-10): backgrounds mostly white or Parchment; Disciple Blue for structure (~30%); Gold + Red as accents (~10%). Use Eye Green **only** to flag correct answers and Lion Red **only** for errors/warnings, so color carries meaning.

2 · The Mascot — "Judah" the Lion

Welcoming / thumbs-up

Reading the dictionary

Praying / reverent

Headshot (for callouts)

Character bible

- **Who:** Judah, a friendly young lion, the Boston Flex guide and study buddy. Warm, encouraging, never stern.
- **Look:** golden-amber fur (#E29A2C), reddish-brown mane (#6E2A0C), bright green eyes, wearing a **royal-blue tracksuit jacket with red trim** and the school crest on the chest.
- **Role in materials:** Judah appears in the corner of slides/frames giving short "speech-bubble" tips, mnemonics and encouragement. He introduces each topic and celebrates correct answers.
- **Voice:** simple, kind, motivating, age 13–15. One idea per bubble. He never lectures.

When generating mascot art, render a cartoon lion that matches Judah's colors, mane and blue/red tracksuit. Keep him consistent across every frame: same outfit, same proportions, same friendly expression.

3 · Typography & Layout

Type

- **Headings:** bold geometric sans (e.g. Poppins / Montserrat), Disciple Blue.
- **Body:** clean humanist sans (e.g. Inter / Source Sans), Ink.
- **English examples:** may use a slightly different weight or Gold underline so they stand out from explanations.

Layout

- Generous white space; one main idea per slide/section.
- Rounded cards (12–16px radius), soft shadows.
- Consistent icon set; flat, friendly, not clip-arty.
- Crest or small Judah head as a repeating corner motif.

4 · Required Visual Devices

Device	How it must look
Comparison tables (tense vs tense)	Two/three columns, colored header row in Disciple Blue, alternating row shading, a check (Eye Green) / cross (Lion Red) column where relevant.
Timelines	Horizontal arrow "NOW → FUTURE", labeled markers, the action plotted on the line; used for all future tenses and the future-perfect "looking back" idea.
Mascot callouts	

	Judah + speech bubble with one tip, mnemonic or rule-of-thumb, in Parchment bubble with Gold border.
Color-coded grammar	Correct = Eye Green, errors = Lion Red strikethrough, key structure words in Gold. Keep this code identical everywhere.
Exercise blocks	Clearly boxed, numbered, with an answer reveal styled in a green card.

5 · Quality Standard (non-negotiable)

Every graphic, table and frame must reach international study-material standards on four axes:

- **Clarity:** a student understands it with no teacher present; no unexplained jargon.
- **Concision:** minimum words for maximum meaning; one concept per visual.
- **Precision:** grammar facts exactly correct; examples unambiguous.
- **Logical structure:** simple → complex; each topic builds on the previous; consistent labeling and color code throughout.

Output language: **English** (the materials support an English class). Tone and complexity calibrated for grades 8–9.
